

CURRICULUM VITAE

I am a passionate and detail-oriented software developer with hands-on experience in software development and a strong foundation in programming languages such as Python, Java, and JavaScript. I am proficient in object-oriented programming, data structures, and algorithms, and I have additional knowledge of web development frameworks like React and Node.js.

I have completed both academic and personal projects that involve full-stack development, database management, and API integration. I am eager to apply my technical skills and problem-solving abilities to real-world projects in a dynamic, growth-focused environment. I am known for my collaborative spirit, adaptability, and keen interest in learning new technologies.
